MathXL<sup>®</sup> for School***

Point your browser to:  
<http://www.MathXLforSchool.com>

**Note:**  
Before you can enroll in a  
*MathXL<sup>®</sup> for School* class, you must  
be a registered user.

In order to register, you must have an access code. In most cases, your teacher will provide you with a “Personal Student Registration Record” (see below) with a unique code and registration directions. See the “Student Registration” tour for details.

## Personal Student Registration Record #2

Student Name: \_\_\_\_\_ School Name: \_\_\_\_\_

Teacher Name: \_\_\_\_\_ Online Course \_\_\_\_\_

### How to Register for MathXL for School

If your teacher has already filled in a login name and password below, skip to Step 11.

1. Go to [www.MathXLforSchool.com](http://www.MathXLforSchool.com) and click the Register button.
2. Read all information in the License Agreement and Privacy Policy. Click on **Accept** if you agree to the terms.
3. On the **Access Information** Screen, you'll be asked whether you already have a Pearson Education Account. Choose one of the options and fill in the requested information.
4. Under **Access Code**, type your student access code in the boxes. Type one word in each box and use capital letters. (Don't type the dashes.)

HSMXL-STARE-NEEDY-POLES-QUICK

**NOT FOR RESALE:** By using the access code printed above to register, you indicate that you have read, understood, and agree to the License Agreement, which is located at the bottom of the registration page.

Once your registration is complete, go to [www.MathXLforSchool.com](http://www.MathXLforSchool.com) and log in with your user information.

## Running the Browser Check

If your class requires the Browser Check to configure your computer, click Browser Check and it will start automatically.

The screenshot shows the MathXL for School enrollment confirmation page. The page header includes the MathXL logo and navigation links: Home, Help, Support, and Log Out. The main content area displays "Enrollment Confirmation" and "You are now enrolled in: Algebra II - YOUR NAME". A warning message states "You do not have the required browser version." Below this, a link "Run Browser Check now" is circled in red. A red arrow points from this link to a "Browser Check" dialog box. The dialog box has a title bar with the MathXL logo and contains a loading spinner and the text "Checking browser...". At the bottom of the dialog box are "Cancel" and "Done" buttons. The footer of the page reads "2008 Pearson Education" and "Copyright © 2008 Pearson Education, Inc. All Rights Reserved. Trademark notices".

Once the Browser Check is complete, any software that you need to install or update will be indicated in red text. In this case, a link to install or verify the software will be provided.

The screenshot shows a 'Browser Check' dialog box from MathXL. The title bar reads 'Browser Check' and the MathXL logo is in the top right. The main heading is 'Browser Check Complete!' with a printer icon and a help icon. Below this, a message states: 'You are missing some components needed for this course. Click the links below to install these components. Then quit/exit your browser, reopen your browser, and run Browser Check again to confirm installation.'

A warning icon is followed by the text: 'You must have [Administrator Rights](#) to this computer to complete any installations.'

Two items are listed with red text and red arrows pointing to their respective action links:

- Java™ Runtime Environment** — [Install Now](#) [Show Details](#)
- TestGen® Plug-in** — [Check Version](#) [Show Details](#)

Three items are listed with blue checkmarks and blue text:

- Adobe® Flash® Player** [Show Details](#)
- Adobe® Reader®** [Show Details](#)
- Apple® QuickTime® Player** [Show Details](#)

A help icon is followed by the text: 'Need help? Review the [Troubleshooting Topics](#) or visit our [Product Support site](#) for tips and contact information.'

[View System Requirements](#)

At the bottom, there are 'Cancel' and 'Done' buttons.

Follow the on-screen instructions to install or update any required software. If you have any trouble with the installation, click the link for Troubleshooting Topics or the *MathXL® for School* Product Support site.

The screenshot shows a 'Browser Check' dialog box with the MathXL logo in the top right. The main heading is 'Browser Check Complete!' with a printer icon and a help icon. Below this is a paragraph of instructions: 'You are missing some components needed for this course. Click the links below to install these components. Then quit/exit your browser, reopen your browser, and run Browser Check again to confirm installation.' A yellow warning icon is followed by the text: 'You must have [Administrator Rights](#) to this computer to complete any installations.' The list of components includes: 'Java™ Runtime Environment' with links for 'Install Now' and 'Show Details'; 'TestGen® Plug-in' with links for 'Check Version' and 'Show Details'; 'Adobe® Flash® Player' with a 'Show Details' link; 'Adobe® Reader®' with a 'Show Details' link; and 'Apple® QuickTime® Player' with a 'Show Details' link. At the bottom, a question mark icon is followed by the text: 'Need help? Review the [Troubleshooting Topics](#) or visit our [Product Support site](#) for tips and contact information.' Below this is a 'View System Requirements' link. At the very bottom are 'Cancel' and 'Done' buttons.

## Administrator Rights

Whether your class requires the Browser Check or Installation Wizard, you must have the right to install software on the computer.

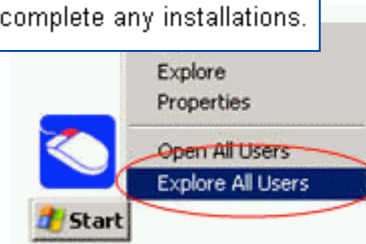

For more information about Administrator Rights, click the link as shown here.

 You must have [Administrator Rights](#) to this computer to complete any installations.

### Administrator Rights

Administrator rights allow you to install software on a computer. If you are on a lab computer, business or institution, it is unlikely that you have full administrator rights, and you will not be able to complete the installation process. If you are unsure of your status and continue the installation process, you will not harm your computer, but the installation will not be successfully completed.

On Windows 2000 and XP systems, you can check if you have Administrator rights by right-clicking on the Start button. If you see the text "Explore All Users," you have Administrator rights.

On Macintosh OSX systems, you can check to see if you have Administrator rights by following these steps:

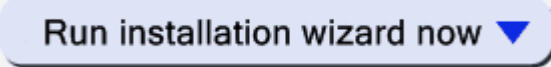

1. From the **Apple** menu choose **System Preferences**.
2. From the **View** menu choose **Accounts**.

Before proceeding to your *MathXL*<sup>®</sup> *for School* course, close and restart your computer's Internet browser.

If your class requires the Browser Check, you will *not* need to run the Installation Wizard.

The slides that follow will take you through the steps for running the Installation Wizard.

## Running the Installation Wizard

If your class requires the Installation Wizard, click the button  to start the Installation Wizard.

## Administrator Rights

Whether your class requires the Browser Checker or Installation Wizard, you must have the right to install software on the computer.

As needed, click the links for more information or help with the Installation Wizard.

**Installation Wizard**

**! Before you begin...**

This wizard helps you install the software you need to access the exercises and multimedia content in your course.

-----

This installation should take about 5 minutes on a fast connection or up to 20 minutes on a dial-up. Allow more time to install multimedia plug-ins.

**To install this software:**

- You must have [Administrator Rights](#) to this computer and you must [allow ActiveX](#).
- If you are using [AOL or another ISP](#), connect to the Internet as usual but use a supported browser. We recommend Internet Explorer 6.0.

**Click Next to begin.**

## Be sure to watch for prompts to allow the software to download.

These may appear in a yellow bar just below the address bar. Click on the prompt to install the necessary software.

The screenshot shows a web browser window with the address bar containing the URL `http://asp.mathxforschool.com/wizard/wizard_install.asp`. A yellow security warning bar is visible below the address bar, stating: "This website wants to install the following add-on: 'Pearson Installation Assistant' from 'Pearson Education'. If you trust the website and the add-on and want to install it, click here...". The main content area is titled "Installation Wizard" and features the MathXL logo. The wizard is at "Step 1A: MathXL® Player", explaining that the MathXL Player is an ActiveX control required for practice exercises, homework, and tests online. A section titled "MathXL Player Installation Assistant" includes a warning icon and text: "The Installation Assistant installs the MathXL Player and keeps it updated. Please install it now." Below this is a red instruction: "Install the Installation Assistant now." and a button labeled "Install Now". A progress indicator on the right shows "1. MathXL® Player (required)" as the current step, followed by "2. TestGen® Plug-in" and "3. Media Plug-ins". A "Finish" button is also present. A "Need Help?" section provides links to the "Product Support Site" and "Print installation instructions". At the bottom, there is a "Custom Install" option. A note at the bottom of the wizard says: "Please wait while the Installation Assistant downloads."

Click as prompted to install the necessary software.

This website wants to install the following add-on: 'Pearson Installation Assistant' from Pearson Education'. If you trust the website and the add-on, you want to install it, click here...

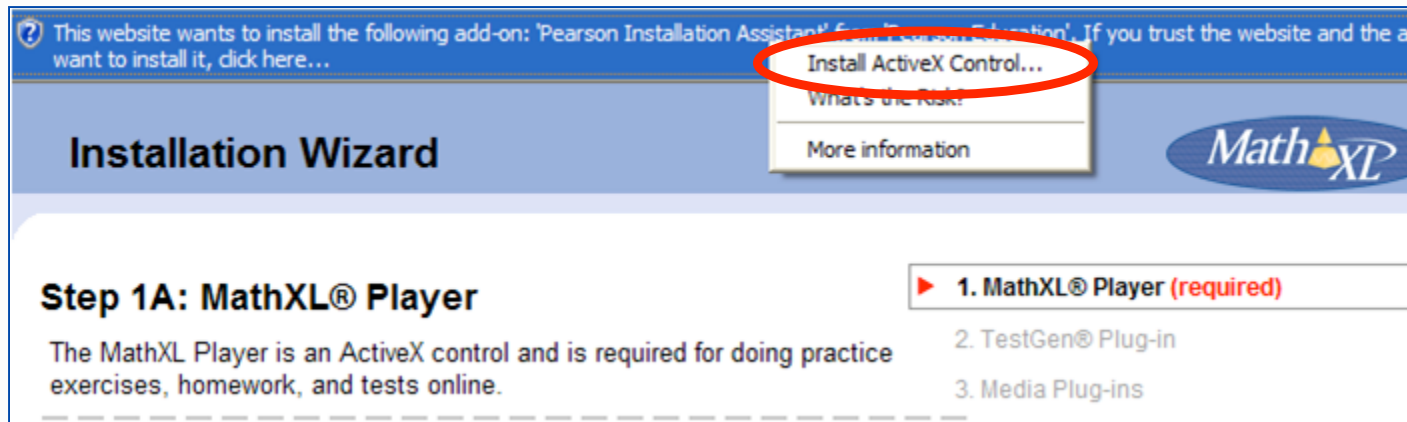

**Install ActiveX Control...**  
What's the Risk?
